Analysis

From the feedback it is observed that majority of teachers are satisfied with contents of the syllabus taught, nature of the kill based courses, objectives enunciated, the books availability in the library, the standard of the syllabus as compare to other

universities in the country, and choice of courses available for the students. The teachers also appreciated the infrastructure present, the system of examinations, and opportunities available for them to attend Seminars, Conferences and other academic activities. However there was dissatisfaction among the teachers regarding research facilities, funding by university and easy availability of study leave. The ERP [Online Admission Software] too has passed the fitness test and has been appreciated by the college fraternity for speeding up the work related to the data management of the students.

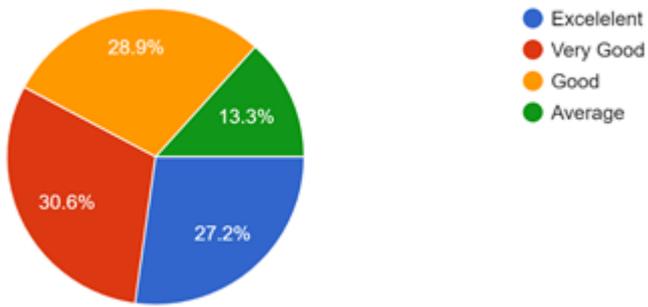

Feedback Part B

Students Feedback and Analysis

The success of academic institution depends upon the ease with which students can interact with the management and teachers. So to facilitate the interaction and make it easier for the students, the feedback is collected from the students through online mode. 2. Please give your suggestion, if any

Good

All facilities are good

Excellence college

nothing to say but should improve college infrastructure.

College is good but college bad boy and girl is not good. But My very happy I am signal alone boy rader,

Monthly parents teachers meeting, essential information to the parents through SMS, maximum involvement of students in sports activities.

Monthly parents teachers meeting, essential information to the parents through SMS, maximum involvement of students in sports activities, time to time career counselling seminars.

Everything is nice

All Good

No overall is great

Most of students using Mobile phn during MTT examination so they have taking good internal assessment marks. Please sir, I requested to you keep checking the students while they give annual exams.

There should be Discipline in collegeAnd Every student Should be provided with uniform...

It is suggestive that the parents are highly satisfied with the infrastructure and other facilities available for their wards. Some of the points/suggestions raised by parents are presented in toto as above.

- **Ways to improve the institution (in verbatim)**

Increase some exposure

The students needs to give some inspiration to build their career.

The interactive sessions needs to be conducted in college to boost the confidence of each and every student.

1. Early exposure to career planning would be appreciated. 2. Interactive learning like group discussions,etc should be a part of daily learning.

One of the best collage

Education has an impact on everything we see, do, and believe in our world. From the basics of reading and writing to entrepreneurship and the economy, school is more than a home for academics.

Focus on Careers—For older students, teach them how to focus on careers with their hearts and their heads. This type of teaching means helping students make smart decisions when it comes to college, careers, and future planning. Passion is critical, but we want our students to land a job in a field where we expect growth to occur.

It is important to solve the problem of the students because if the student is disturbed then no improvement will be of any use.

Use of Better teaching aids such as smart boards , power point presentations, arrangement of seminars, more use of computer applications.

- **How would you like to contribute in the betterment of the institution? (in verbatim)**

As per the directions and disposal of faculty.

By teaching here as assistant professor

Yes

With the present resources I would like to 1. mentor on-going students. 2. Volunteer committees and boards. 3. Provide career guidance to the students

To Teach students can be

“Coming from another country (or race, religion, socioeconomic class or lifestyle), I will contribute a different perspective to class discussions and add diversity.”

The best way to contribute is by identifying or ascertaining the community issues. Carry out an informal survey around the community. Write a proposal on the project or services you want to render to the community. Organise focus group discussions with opinion leaders in the community. Approach the community leaders (Community kings or rulers).
just to help the students
